

SC 800

THE BEST SHAKER IN THE FIELD

The **SC800** olive shaker is the professional olive harvesting machine. A group of users equipped with nets and SC800 olive shaker can harvest more than 15 quintals of olives per day with a 95% drop of the fruit, without damaging the tree or its cabbages. The anti-vibration system in the handles minimizes the vibrations transmitted to the user, who will appreciate the results obtained, the proven reliability and durability of the machine.

CIFARELLI The fruits of the Earth in good hands. Since 1967.
